Make room for books students want to read!

Across the country, librarians are overwhelmed by outdated collections and limited resources - but don't have the time or budget for on-site services. That's where Remote Collection CleanUp comes in.

Let us help you clear the clutter, uncover collection gaps, and build a strategic purchasing plan - remote! **Quick and Effective!**

- Cataloging cleanup (e.g., missing years, call numbers)
- Adjusted analysis based on your needs (award winners, special collections, etc.)
- A prioritized list by call number and barcode
- Three short virtual meetings with your assigned Follett librarian

Replenishment Plan (Includes Weeding Plan!)

This all-in-one package helps you remove outdated content and build a three to five year purchasing strategy to close gaps and increase relevance.

Includes everything in the Weeding Plan, plus:

- Subject area analysis to determine critical gaps
- Strategic road map tied to literacy goals and student interests
- Documentation to help secure funding from your school board or outside sources

Why it Matters

The Cost of Doing Nothing

- Outdated books lead to misinformation and disengagement
- Crowded shelves hide books that matter to students
- Without a plan, you can't make confident purchasing decisions

What Changes:

- Free up your time to work directly with students and lead impactful reading programs
- Circulation increases when students can find relevant, exciting titles
- Shelves become browsable and engaging, not cluttered and overwhelming
