Facility Management

THAT WORKS AS HARD AS YOU DO

The **Follett Software Facilities Suite** gives K-12 districts the tools to proactively manage buildings, assets, and events – so nothing gets missed and every space supports student success.

Today's Reality:
**Facilities teams are doing more with less.**

- Work requests come from every direction – calls, emails, sticky notes.
- There's no centralized way to manage issues, assets, or space use.
- Critical tasks get lost in the shuffle, and preventative maintenance falls behind

You need tools that reduce chaos – **not add to it.**

✓ **One Suite. Everything You Need.**
The Follett Software Facilities Suite helps schools stay ahead of wear, waste, and what's next.
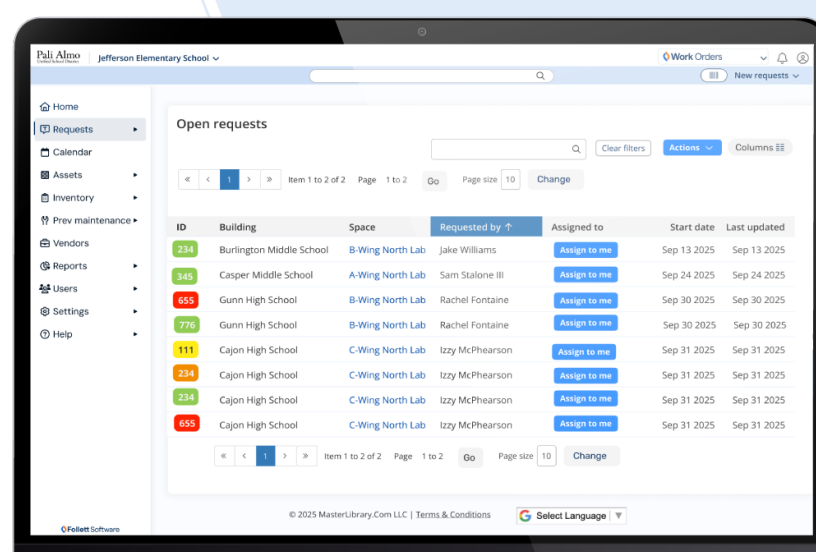

F Facilities Schedules

Simplify how your schools manage space.

- Handle internal and external room requests with ease.
- Automatically block time based on maintenance or other needs.
- Sync with Google and Microsoft Outlook calendars.
- Track usage, approve requests, and invoice for fees – all in one spot.

> "One click shows you every event. The calendar is always up-to-date and visible to the entire district."

F Work Orders

Keep maintenance organized and moving.

- Route work orders to the right people instantly.
- Assign, track, and resolve issues from any device.
- Store asset details, warranties, and history in one place.
- Use dashboards to monitor progress and uncover trends.
- Set up preventative maintenance to avoid costly breakdowns.

> "You can click a room and see every issue. You know exactly what's in that space, what it's worth, and what needs attention ."

F Facilities Drawings

Your floor plans – broght to life.

- See clickable, interactive maps of your school facilities.
- Find equipment by location, type, or system.
- Create work orders directly from the asset view.
- Access building data in real time – on-site or remotely.

> "Everything you need to know about your building is right there: photos, serial numbers, specs, and service records."

Why It Matters

Facilities teams are the backbone of safe, efficient schools. With the Follett Software Facilities Suite, your team gets:

- Real-time access to building data
- A single platform to manage assets, events, and issues
- More time to focus on what matters: supporting students and staff

Whether you're in maintenance, operations, or administration, this suite helps your team stay organized, informed, and prepared for whatever comes next.
